Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

VI. Effects in Kazakhstan of International Applications under the Patent Cooperation Treaty (PCT)

(9) (a) On Feb. 16, 1993, Kazakhstan deposited a declaration of continuation the effect of which is that the Patent Cooperation Treaty (PCT) is applied by Kazakhstan. Nationals and residents of Kazakhstan can therefore file international applications, and Kazakhstan can be designated and elected in international applications filed, from the date.

(i) international applications designating the Soviet Union which were filed before Dec. 25, 1991 (see (d), below);

(ii) international applications—irrespective of the designations they contain—which were filed between Dec. 25, 1991, and Apr. 16, 1993 (see (e) to (g), below);

(iii) international applications specifically* designating Kazakhstan filed on or after Feb. 16, 1993 (see (h), below).

(d) As regards any international application whose international filing date is before Dec. 25, 1991, and in which the Soviet Union has been designated, the "national filing effect" of any such application under Article 11(4) of the PCT will, pursuant to the deposit by Kazakhstan of its declaration of continuation, be recognized in Kazakhstan. The conditions under which any such international application, or any patent or inventor's certificate resulting therefrom and granted by the Patent Office of the Soviet Union or by the Patent Office of the Russian Federation, may continue to have effect in Kazakhstan are the following:

(i) if a patent for invention or an inventor's certificate has been granted by the Patent Office of the Soviet Union or by the Patent Office of the Russian Federation on the basis of international application, the conditions referred to in paragraph (6) above, are applicable;

(ii) if the applicant has entered the national phase before the Patent Office of the Soviet Union or the Patent Office of the Russian Federation but a patent for invention or an inventor's certificate has not been granted by any of those Offices, the conditions referred to in paragraph (7), above, are applicable, provided that the applicant must, before Dec. 1, 1993, file with the National Patent Office of Kazakhstan a request that the international application be further processed according to the Kazakh legislation; the request must be accompanied by a copy of the Russian translation of the international application submitted to the Patent Office of the Soviet Union or the Patent Office of the Russian Federation and a declaration that the application is still pending before the Patent Office of the Russian Federation; however where a decision to grant a patent has issued, only the requirements referred to in paragraph (8), above, apply;

(iii) if the applicant has not entered the national phase before the Patent Office of the Soviet Union or the Patent Office of the Russian Federation and the time limit for entering the national phase had not expired on Dec. 24, 1991, the applicant must, before Dec. 1, 1993, or, if Kazakhstan is elected under Chapter II of the PCT within 19 months from the priority date, before Dec. 1, 1993, or the expiration of 31 months from the priority date whichever is later, furnish to the National Patent Office of Kazakhstan a translation of the international application into Kazakh or Russian and evidence that the prescribed fee (see paragraph (12), below) has been paid to the latter Office.

(e) As regards any international application whose international filing date is later than Dec. 24, 1991, and earlier than Apr. 17, 1993,** its effect may be extended to Kazakhstan (irrespective of the designations it contains) through the performance by the applicant of the following acts:

(i) filing with the International Bureau of the World Intellectual Property Organization (WIPO) a request for extension;

(ii) paying to the International Bureau of WIPO an extension fee of 185 Swiss francs, payable in Swiss francs.

The notification will, in particular, specify the modes of payment of the extension fee of 185 Swiss francs. The request for extension must contain the identification of the international application by its international application number. A form which may be issued for the purpose of requesting the extension to Kazakhstan will be attached to the notification. The request for extension must be English or French, and may be sent be telefax or telex. The request for extension and the corresponding payment must reach the International Bureau of WIPO before the expiration of three months from the date of the notification sent by the International Bureau of WIPO; if either the request or the fee is received later, the request will be refused. (g) If the conditions described in (e) and (f), above, are fulfilled, Kazakhstan will be considered as having been designated in the international application on its international filing date. For entering the national phase before the National Patent Office of Kazakhstan, the applicant must furnish, within the following time limit, to that Office both a translation of the international application into Kazakh or Russian and evidence that the prescribed fee (see paragraph (12), below) was paid:

(i) before Dec. 1, 1993, or the expiration of 21 months from the priority date, whichever is later, if Kazakhstan is not elected under Chapter II of the PCT before the expiration of 19 months from the priority date and item (iii) does not apply;

(ii) before Dec. 1, 1993, or the expiration of 31 months from the priority date, whichever is later, if Kazakhstan is elected under Chapter II of the PCT before the expiration of 19 months from the priority date;

(iii) before Dec. 1, 1993, or the expiration of 31 months from the priority date, whichever is later, if a request for extension to Kazakhstan is made after, but the demand was made before, the expiration of 19 months from the priority date, and a later election of Kazakhstan is made together with the request for extension or within three months from the date of the request for extension.

(h) As regards any international application whose international filing date is on or after Feb. 16, 1993, and in which Kazakhstan is specifically designated, the applicant, in order to enter the national phase before the National Patent Office of Kazakhstan, must furnish, within the following time limit, to that Office both a translation of the international application into Kazakh or Russian and evidence that the prescribed fee (see paragraph (12), below) has been paid to the said Office:

(i) before the expiration of 21 months from the priority date if Kazakhstan is not elected under Chapter II of the PCT with 19 months from the priority date;

(ii) before the expiration of 31 months from the priority date if Kazakhstan is elected under Chapter II of the PCT within 19 months from the Priority date.

The notice will, in particular, specify the modes of payment of the fee. The request must contain the identification of the international registration concerned by its international registration number. A form (in French) will be attached to the notice and may be used. The request must be in English or French, and may be sent by telefax or telex. The request and the corresponding payment must reach the International Bureau of WIPO before the expiration of six months from the date of the notice sent by the International Bureau of WIPO; if either the request or the fee is received later, the request will be refused. Requests and payments may be made without waiting for the notice of the International Bureau of WIPO.

(f) If the conditions described above are fulfilled, the international registration concerned will, with respect to Kazakhstan, have effect as from the effective date of the territorial extension to the Soviet Union and benefit from any priority validly claimed in regard such extension.

(g) For each international registration which has territorial extension to the Russian Federation effective from a date prior to Apr. 17, 1993, the owner may request the National Patent Office of Kazakhstan before Nov. 1, 1993, that the said registration be processed as an application under the Kazakh legislation. The request must be accompanied by an extract from the International Register established by the International Bureau of WIPO, by a declaration that, to the best knowledge of the owner, the international registration still has effect in the Russian Federation, and by an application filed according to the Kazakh legislation.

(ii) paying to the International Bureau of WIPO an extension fee of 185 Swiss francs, payable only in Swiss francs.

(f) The applicant in respect of each and every international application referred to in (e), above, or his agent or common representative if there is one, will receive a written notification form the International Bureau of WIPO drawing his attention to the fact that he can, by filing a written request for extension, extend the effects of the international application to Belarus. The notification will, in particular, specify the modes of payment of the extension fee of 185 Swiss francs. The request for extension must contain the identification of the applicant's international application by its international application number. A form which may be issued for the purpose of requesting the extension to Belarus will be attached to the notification. The request for extension must be in English or French, and may be sent by telefax or telex. The request for extension and the corresponding payment must reach the International Bureau of WIPO before the expiration of three months from the date of the notification sent by the International Bureau of WIPO; if either the request or the fee is received later, the request will be refused. It is recommended that applicants await the notification from the International Bureau of WIPO and use the form attached to it, but requests and payments may be made prior to receipt of the notification from the International Bureau of WIPO.

(g) If the conditions described in (e) and (f), above, are fulfilled, Belarus will be considered as having been designated in the international application on its international filing date. In order to enter the national phase before the State Patent Office of Belarus, the applicant must furnish to that Office, within the following time limit, both a translation of the international application into Belarusian or Russian and evidence that the prescribed fee (see paragraph (13), below) has been paid:

*In this announcement, an international application is regarded as "specifically" designating Belarus either if Belarus has been designated under Rule 4.9(a) of the Regulations under the PCT or if the designation of Belarus has been confirmed under Rule 4.9(c) of those Regulations.

** With the exception of any such international application whose international filing date is on or after Apr. 14, 1993, and in which Belarus is specifically designated: in such a case, the procedure described in (e) to (g) is not applicable, and the procedure described in (h) applies. It should be noted that Belarus can be specifically designated only in those international applications filed on or after Apr. 14, 1993

(i) before Aug. 5, 1993, or before the expiration of 21 months from the priority date, whichever is later, if Belarus is not elected under Chapter II of the PCT within 19 months from the priority date and item (iii) does not apply;

(ii) before Aug. 5, 1993, or the expiration of 31 months from the priority date, whichever is later, if Belarus is elected under Chapter II of the PCT within 19 months from the priority date;

(iii) before Aug. 5, 1993, or the expiration of 31 months from the priority date, whichever is later, if a request for extension to Belarus is made after, but the demand for international preliminary examination was made before, the expiration of 19 months from the priority date, and a later election of Belarus is made together with the request for extension or within three months from the date of the request for extension.

(h) As regards any international application whose International filing date is on or after Apr. 14, 1993, and in which Belarus is specifically designated, the applicant, in order to enter the national phase before the State Patent Office of Belarus, must furnish to that Office, within the following time limit, both a translation of the international application into Belarusian or Russian and evidence that the prescribed fee (see paragraph (13), below) has been paid to the said Office:

(i) before the expiration of 21 months from the priority date if Belarus is not elected under Chapter II of the PCT with 19 months from the priority date;

(ii) before the expiration of 31 months from the priority date if Belarus is elected under Chapter II of the PCT within 19 months from the Priority date.

VII. Effects in Belarus of International Registrations under the Madrid Agreement Concerning the International Registration of Marks

(11) (a) As mentioned in paragraph (2), above, On Apr. 14, 1993, Belarus deposited a declaration of continuation, the effect of which was that the Madrid Agreement Concerning the International Registration of Marks is applied by Belarus.

(b) Pursuant to the deposit of the declaration of continuation and to Rule 38 of the Regulations under the Madrid Agreement, certain international registrations may have effect in Belarus subject to the conditions described below. The international registrations are those which have a territorial extension to the Soviet Union effective from a date prior to Dec. 25, 1991.

(c) The conditions referred to above are the following:

(i) the filing with the International Bureau of the World Intellectual Property Organization (WIPO) of a request;

(ii) the payment to the International Bureau of WIPO of a fee, the amount of which is 62 Swiss francs per international registration.

(d) The owner of each and every international registration concerned, or his representative (if the owner has a representative whose name appears in the International Register), will receive a written notice from the International Bureau of WIPO drawing his attention to the fact that he can, by filing a written request, obtain the continuation of the effect of the international registration in Belarus. The notice will, in particular, specify the modes of payment of the fee. The request must contain the identification of the international registration concerned by its international registration number. A form (in French) will be attached to the notice and may be used. The request must be in English or French, and may be sent by telefax or telex. The request and the corresponding payment must reach the International Bureau of WIPO before the expiration of six months from the date of the notice sent by the International Bureau of WIPO; if either the request or the fee is received later, the request will be refused. Requests and payments may be made prior to receipt of the notice of the International Bureau of WIPO.

(e) If the conditions described above are fulfilled, the international registration concerned will, with respect to Belarus, have effect as of the effective date of the territorial extension to the Soviet Union and benefit from any priority validly claimed with regard to such extension.

(f) For each international registration which has a territorial extension to the Russian Federation effective as of a date between Dec. 25, 1991 and Apr. 14, 1993, the owner may request the State Patent Office of Belarus, before Aug. 5, 1993, that the said registration be processed as an application under the Belarusian legislation. The request must be accompanied by an extract from the International Register established by the International Bureau of WIPO, by a declaration that, to the best knowledge of the owner, the international registration still has effect in the Russian Federation, and by an application filed according to the Belarusian legislation.

(g) For each international registration not covered by (b) or (f), above, namely, for each international registration which has no territorial extension to the Soviet Union or to the Russian Federation or whose international registration date is later than Apr. 14, 1993, protection in Belarus can only be obtained by filing, through the intermediary of the national Office of the country of the owner, a request for territorial extension under Rule 20 of the Regulations under the Madrid Agreement. It is noted that requests for territorial extension to Belarus are possible at present.

VIII. Procedural Provisions

(12) If an applicant does not have his ordinary residence or principal place in business in Belarus, he must authorize a representative in Belarus, and all requests, applications and other documents must be filed through the intermediary of such a representative.

(13) The official fees applicable to the procedures referred to under paragraphs (3), (4), (5), (7), (8) (10) and (11)(f) are available from the State Patent Office of Belarus.

(14) Any request referred to under paragraphs (3), (4), (5), (7), (8), (10)(d)(ii) and (11)(f), above, and any declaration referred to under paragraphs (10)(d)(ii) and (11)(f), above, must be filed in Belarusian or Russian.

Declaration of Continuation by Belarus

The United States Patent and Trademark Office has received notification from the World Intellectual Property Organization (WIPO) that Belarus on Apr. 14, 1993, deposited a declaration the effect of which is that the PCT is applied by Belarus. Consequently, nationals and residents of Belarus are entitled to file international applications under the PCT, and Belarus may be designated and elected in international applications. Moreover, the extension to Belarus of the effects of each international application filed on or after Dec. 25, 1991 (the date on which the Soviet Union ceased to exist) and no later than June 22, 1993, may be requested by the applicant concerned.

That request must be filed with, and the prescribed fee must be paid to, the International Bureau of WIPO within three months from the date of its notification informing the applicant that a request for extension may be made. An applicant may also extend to Belarus the effect of an international application which was filed before Dec. 25, 1991, provided the application designated the Soviet Union and other conditions and procedures as prescribed by Belarus are met. An Announcement on the Protection of Industrial Property in Belarus is reproduced above.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
